## SUMMARY

Student in the Cybersecurity Engineering Program at Politeknik Negeri Batam with a proven interest in penetration testing, networking, and Linux system administration. My experience includes active involvement in designing a well-architected SIEM and network infrastructure, alongside developing a SIEM system complete with network segmentation, IDS/IPS implementation, and vulnerability assessment. I am eager to contribute these hands-on skills in SIEM, networking, and system administration roles.

## EDUCATION

<b>Batam State Polytechnic (Politeknik Negeri Batam)</b> Cybersecurity Engineering (IP 3.94)	<b>August 2023 - Present</b>
<b>State Vocational High School 7 Batam (SMK Negeri 7 Batam)</b> Multimedia (Score: 83,56)	<b>July 2020- May 2023</b>

## PROJECTS

<b>Vulnerability Assesment dan Penetration Testing</b> <ul style="list-style-type: none"><li>Performed VAPT based on OWASP Top 10 (2021) and OWASP WSTG on client websites.</li><li>Identified and reported web application security vulnerabilities with remediation recommendations.</li></ul>	<b>August 2025 - Present</b>
<b>SIEM Development and Game Based Security Operation Center Simulation</b> <ul style="list-style-type: none"><li>Configuring Network Segmentation and Firewall in Infrastructure.</li><li>Implementing Network Intrusion Detection and Prevention System.</li></ul>	<b>Feb 2024 - July 2025</b>
<b>Well-Architect SIEM Implementation</b> <ul style="list-style-type: none"><li>Working and collaborating with other team members.</li><li>Handling SOC-related tasks, including router firewall configuration and SIEM setup.</li></ul>	<b>August 2024 - Jan 2025</b>
<b>Developing Realtime Communication Application with Socket Programming</b> <ul style="list-style-type: none"><li>Working and collaborating with other team members.</li><li>Developing the front-end GUI for the application.</li></ul>	<b>February 2024 - July 2024</b>
<b>Developing Web-Based Caesar Cipher Cryptography Application</b> <ul style="list-style-type: none"><li>Working and collaborating with other team members.</li><li>Developing the web-based applications as a fullstack developer.</li></ul>	<b>August 2023 - December 2023</b>

## SKILLS

• Penetration Testing	• SIEM Engineer	• Intermediate English
• Linux System Administration	• SOC Analyst	• German A1 Level

## CERTIFICATION

<b>Certified Junior Graphic Designer</b> Issued by BNSP   ID Credentials 59190 2166 5 0001317 2023	<b>February 2023 - February 2026</b>
